

The examiners were asked these main questions:

1. In your experience as an examiner, in which areas have examinees had the greatest deficits?
2. What was the primary reason for an examinee's failure on the exam?
3. Which topics should be covered in a training program for physicians striving to receive professional recognition of a foreign medical degree?
4. What would you like to add that we have not asked about?

The third-country physicians were asked these main questions:

1. In your experience taking exams, in which area did you have the greatest deficits?
2. Which topics should be covered in a training program for physicians striving to receive professional recognition of a foreign medical degree?
3. What would you like to add that we have not asked about?
