Attachment 1: Group discussion guide medical students

Main questions (narrative prompt)	**Check – Was that mentioned? Memo for potential questions – bring this up only when the subject was not mentioned by the participant and adapt your formulation**	**Concrete questions- in an appropriate context (also possible at the end) using this formulation**	**Control question → always address both final-year medical student (MS) (verbally and non-verbally)**
I. Caring for patients			
Tell me about your experience during AmbuPaed in your office	Routine Coaching and guidance by practicing pediatricians Coaching and guidance by other employees in the practice Situation-specific feedback Integration in the day-to-day practice activities Diagnoses	What were the differences from your previous work in the clinic as a MS? How did you care for patients using the AmbuPäd?	Please provide an example Please describe a typical situation If you can think of other examples, please describe them
II. Learning success/learning gains/learning experience			
Tell us about your learning and working experiences with AmbuPaed	Professional skills and activities Providing and receiving feedback How are mistakes handled? Agreements with practicing pediatricians Time management	What did you learn? How did this differ from learning in the hospital? How was feedback given? How were mistakes dealt with?	Please provide an example Please describe a typical situation If you can think of other examples, please describe them?
There were structural elements that facilitated learning and working in the practice, i.e., Entrusted professional activities and the AmbuPaed manual. Can you comment on this?	Applying the Entrusted Professional Activity (EPA) Using the AmbuPaed-manual	Did the EPA help you learn in the pratice? Did the AmbuPaed-manual help you learn in the practice?	Example
III. Working together in the office			
Describe what it was like working with the office staff	Which employees did you work with and what were their qualifications? Physician's assistants (MFAs), other physicians How did the number of staff affect how the practice was run?	What did you find helpful? What didn't go that well?	Please provide an example

Main questions (narrative prompt)	**Check – Was that mentioned? Memo for potential questions – bring this up only when the subject was not mentioned by the participant and adapt your formulation**	**Concrete questions- in an appropriate context (also possible at the end) using this formulation**	**Control question → always address both final-year medical student (MS) (verbally and non-verbally)**
IV. Working conditions			
Describe the general working conditions during AmbuPaed	Lunch break Working hours Time for studying on your own Workload Availability of the practice Commuting expenses Info-materials in the practice Access to the practice's computer/software How expensive is your commute?	How did you get to the practice? Did you incur travel/commute expenses?	
V. Perspectives, wishes, visions, the future			
What recommendations or advice can you provide regarding the future application of AmbuPaed?	personal general	Which goals were met and which expectations were fulfilled? Which goals were not met and which expectations not fulfilled? After having participated in AmbuPaed: how do you think this experience will affect your future career in pediatrics?	Can you be more specific?? Do any other aspects come into mind?
Is there anything that hasn't been brought up that you would like to address?
